glacier™
FOREVER PURE
PACKAGED DRINKING WATER
EARTH'S FINEST WATER
The Glacier water is pure, healthy, perfect and safe. Pure because it comes from the deep underground flowing rivers, from an uncontaminated environment, far from any possible source of pollution. Healthy because of its natural qualities that make it good for living organisms. All we do is carry on multiple purification process of RO+UV+UF+TDS Control to remove dissolved impurities, bacteria & viruses to render 100% pure & natural water. Our water is safe because we test it several times a day in our laboratories.
Since 1990’s, Kraft Beverages, a unit of Kraft Group of Companies has set itself the singular task of supplying its customers with the best pure water products in terms of both taste and quality. Embodied in our values and company culture are trust, respect for our regional roots, resource conservation and ecological responsibility. We respect the past, and embrace the future which is why innovation has always been a strategic priority – whether it concerns products, packaging or even internal processes. The company began as an inspiration of the founder, realizing the potential growth of a new healthy segment of the beverage industry….bottled water. Glacier Water has morphed into a recognized name in gujarat having state-of-the-art fully automatic filler machine with a capacity to manufacture over 11,00,000 bottles/month, in a wide variety of product sizes: 200ml, 250ml, 500ml, 1 litre and 20 litres. We have successfully strived in making the name synonymous with “fine water”.

ABOUT US

Since 1990’s, Kraft Beverages, a unit of Kraft Group of Companies has set itself the singular task of supplying its customers with the best pure water products in terms of both taste and quality. Embodied in our values and company culture are trust, respect for our regional roots, resource conservation and ecological responsibility. We respect the past, and embrace the future which is why innovation has always been a strategic priority – whether it concerns products, packaging or even internal processes. The company began as an inspiration of the founder, realizing the potential growth of a new healthy segment of the beverage industry….bottled water. Glacier Water has morphed into a recognized name in gujarat having state-of-the-art fully automatic filler machine with a capacity to manufacture over 11,00,000 bottles/month, in a wide variety of product sizes: 200ml, 250ml, 500ml, 1 litre and 20 litres. We have successfully strived in making the name synonymous with “fine water”.
ABOUT GLACIER WATER

A NEW, EXQUISITELY DESIGNED BOTTLE

With Glacier, we know and we feel proud of our privileged nature. Aware of the origins and qualities that make us owners of a really special gift, we feel it is our duty to appreciate it and share it. But above all, to do it the way this water requires to. For Glacier, presentation matters. Therefore, we created a bottle that presents its content as it requires. A different and distinguished designed bottle, thought to please, with impeccable forms and sober appearance. A presentation that praises the moment of consumption and adds elegance to the table.
OFFICIALLY CERTIFIED

The quality of Glacier water is certified through authoritative and universally recognized certifications issued by prestigious organizations like BIS.

COMMITTED TO REDUCING PLASTIC FOOTPRINT

The uniqueness of Glacier Water depends mainly on the environment of the surrounding area and we are profoundly aware of the tight connection between the quality of the water and the well being of the land. For this reason we have taken an initiative to take back the bottles, to recycle & preserve the environment.
EXPERIENCE SUPER HYDRATION WITH pH BALANCED WATER

We at Kraft Beverages have been concerned about health for a long time. Being well aware that health is of vital importance, we are convinced that our products make a positive impact on society and for that we are proud. Glacier water is a premium water with balanced pH level. It helps in Acidity regulation, Hydration & Detox.
THE SIX-STEP JOURNEY OF GLACIER WATER

1. CAREFUL COLLECTION
   Tests done to confirm the sensorial, chemical and the microbiological properties of Raw water.

2. SAND FILTERATION
   Multiple sand filtration process to remove bacteria and solid particles.

3. CARBON FILTRATION
   Activated carbon wipes out unpleasant odours and tastes.

4. UV TREATMENT
   Dirt and viruses are eliminated in this process.

5. REVERSE OSMOSIS
   To monitor and filter Dirt, Viruses & Micro-Organisms

6. OZONATION
   Ozonation is done on daily basis to the raw water to reduce the microbial load.
WHY DRINK MORE WATER?

HEALTHY
If your heart lacks water, it needs to work harder and you feel exhausted. When your skin is properly hydrated, you’ll look younger. Drinking plenty of water can improve your immune system and you’ll less likely get cramps.

HEADACHE AND FATIGUE
Dehydration is a common reason for headaches, and drinking water is a natural remedy for the prevention of headaches.

DIET
Drinking water raises your metabolism and helps you lose weight.

PRODUCTIVITY
Drinking water helps you think better & be more concentrated.
